

Resolved Issues in Vista 8.0 Service Pack 3

Added by Patrick Ryan, last edited by Patrick Ryan on 28 Jul 2009 (view change)

A resolved issue is a software problem from an earlier version that has been fixed in Vista/CE 8.0 Service Pack 3. Issues that have been found but have not yet been resolved are re The Resolved Issues table provides the following information:

Key. An internal ID number used to track this issue within Blackboard. Please refer to this number when contacting Blackboard Product Support about a specific issue. **Component**. The system within Vista/CE to which this issue is related. For example, if an issue is related to the adding Announcements, it will be located in the Announcements subsystem. This report is sorted by subsystem.

Release Note. A brief synopsis of the issue and a workaround if applicable. Please contact Blackboard Support if you have additional questions about a specific issue. **Issue Began**. The version in which the issue was originally reported.

Severity. The impact of this issue on the application.

Кеу	Component	Release Note	Issue Began	Severity
VST-2806	Accessibiity	In Firefox 2.0.0.12, the content of the MyFeatures Tabs frame where the Build, Teach, and Student tabs are located does not appear in Jaws 9.0, 8.0, 7,1, and Window-Eyes 6.0 views.	4.2.0.x / 6.2.0.x	2 - High
VST-2162	Accessibiity Announcements	This issue affects JAWS, the screen reader. After creating an announcement and setting the start and stop displaying date/times, the Stop Displaying between the start and stop is not read.	4.2.0.x / 6.2.0.x	4 - Low
VST-2161	Accessibiity Discussions	After entering a Discussion topic, the screen reader, JAWS, does not read the number of new messages.	4.2.0.x / 6.2.0.x	4 - Low
VST-3921	Announcements	When attempting to reorder announcements, the following message is displayed: "There are currently no announcements. To create an Announcement use the control above." However, the correct announcement sequence is displayed when the user navigates to the "My Blackboard" tab.	8.0 SP1	3 - Medium
VST-4021	Assessments & Questions	Security: Assessments with proctor passwords contain the plain text passwords in the URL after entering the assessment with the correct password.	8.0 SP2	2 - High
VST-3898	Assessments & Questions	When taking an assessment the session is not kept alive. The student's session times out forcing the student to restart the assessment or makes them unable to complete the assessment.	8.0 SP1	2 - High
VST-3397	Assessments & Questions	The printable statistics view for a paragraph type question does not appear if there are over 1350 characters in the answer.	8.0 GA	3 - Medium
VST-3295	Assessments & Questions	If an Assessment is created as a Weblink, the system forwards the student to the Assessment list which should be hidden to students.	8.0 GA	3 - Medium
VST-2176	Assessments & Questions	After restoring a Section with Assessments that contain Question Set values that non-whole numbers, the decimals are improperly rounded down.	4.2.0.x / 6.2.0.x	2 - High
VST-4116	Assignments	Students are unable to submit assignments after SQL Server 2005 automatically updates to SP3.	8.0 SP1	2 - High
VST-4099	Authentication	Security: Without proper authorization a user is able to view/modify Section Settings.	8.0 SP1	1 - Showstop per

VST-1982		Navigating from the Portfolio tab to an institutional tab (My Blackboard, User Manager etc) causes the top frame logo to appear as a broken image.	4.1.1.x / 6.1.1.x	3 - Medium
VST-3194		Students can delete all calendar entries for a particular section without properly verifying their role.	4.2.0.x / 6.2.0.x	1 - Showstop per
VST-2544	Content Import/Export	When the My Files space for a user is over quota it is not possible to upload a file to a Section's file space.	4.2.0.x / 6.2.0.x	2 - High
VST-3779	Content Import/Export Cross Listed Courses	After content is copied from one section to another, the Learning Module Table of Content links are out of order.	8.0 SP1	2 - High
VST-3271	Content Pages	Internet Explorer 7: Users receive error messages when attempting to view content pages.	4.2.0.x / 6.2.0.x	2 - High
VST-2069	Course Management	When restoring the default Course list, the warning message states that it sorts in Descending order, while it actually displays in Ascending order.	4.2.0.x / 6.2.0.x	3 - Medium
VST-2951	Course Toolbar	In Internet Explorer version 7, the table of contents frame becomes narrower as you progress through the items in a learning module.	4.2.3.x / 6.2.3.x	3 - Medium
	Cross Listed Courses	When you create a Cross-listed Parent Course and Section, the usual method of restricting access to Section Student users (the <begin restrict="1">date</begin>) within the XML does not actually prevent SSTU users from accessing the Section once it is created.	4.2.0.x / 6.2.0.x	2 - High
VST-3927	Database	After upgrading to Microsoft SQL Server 2005 SP3, the application throws an error when attempting to upload files anywhere in the application.	8.0 SP1	2 - High
VST-3954	Discussions	In sections restored from a self-hosted system, any discussion post longer than approximately 1300 characters is truncated. Basic formatting is also lost.	4.2.3.x / 6.2.3.x	1 - Showstop per
VST-2709	Discussions	This issue concerns a cross-site scripting vulnerability in the Discussion Boards.	4.1.1.x / 6.1.1.x	2 - High
VST-3849	Discussions	Security issue regarding unenforced user entitlements in the Journal Search subsystem.	8.0 SP1	2 - High
VST-3631	Discussions	Discussion Board: The 'New Message icon is not working after migration from SP3 to CE 8.0.	4.2.3.x / 6.2.3.x	2 - High
VST-3081	Discussions	Any user can place any javascript into a discussion post with HTML turned on.	4.2.3.x / 6.2.3.x	2 - High
VST-2428	ePortfolio	After customizing the Top frame logo for the Portfolio tool it appears correctly in the Portfolios tab, but it displays as a broken image in the individual Portfolio.	4.2.0.x / 6.2.0.x	4 - Low
VST-2149	File Manager My Content	If an Instructor's My Files space exceeds the alloted quota, and then attempts to download Assignment submissions, an unexpected system exception message occurs.	4.2.0.x / 6.2.0.x	2 - High
VST-4309	Garbage Collection	The GarbageCollectionConfiguration.xml file was updated to improve database performance and stability.	8.0 SP3	2 - High
VST-3266	Gradebook - Instructor	Instructors report blank grade book.	4.2.0.x / 6.2.0.x	2 - High
VST-3260	Gradebook - Instructor	Instructors unable to assign grade of zero in the Grading Form.	4.2.0.x / 6.2.0.x	3 - Medium
VST-1179	Gradebook - Instructor	Internet Explorer: Grade Book rows are misaligned when the Japanese language is in use. Each subsequent Grade Book row is 1 additional pixel out alignment.	4.2.0.x / 6.2.0.x	4 - Low
	Gradebook Service	Editing an Assignment that is attached to a Grading Form by setting the due date in the past causes the Grading form to be removed and wipes out the grades in the Grade column.		2 - High
VST-3573	Groups	The Instructor receives an error when adding a new assignment to all groups on a section.	8.0 SP1	3 - Medium

Groups Mail Tool	When you send a message from the mail tool to a group, not all group members are listed next to the group name. This	4.2.0.x / 6.2.0.x	3 -
	may cause confusion as to who the recipients of the message are.		Medium
Help Tool	Vista Online Help gives system exception when logged in through campus portal	4.2.0.x / 6.2.0.x	2 - High
Local Content	Users are unable to move and rename folders on the content homepage.	8.0 SP1	3 - Medium
Performance	An application server can have CPU utilization of 80% while less than 200 users are connected. This issue is related to the SCORM player	8.0 SP2	1 - Showsto per
Performance	An issue was fixed where many JDBC statements were opened and not closed properly. This caused a connection leak and ultimately system instability under heavy load.	4.2.0.x / 6.2.0.x	2 - High
Proxy Tools	After changing the icon to a proxy tool link designed to open in a new window, the tool opens in the frame.	8.0 GA	4 - Low
SCORM	Users trying to import a SCORM module through the SCORM tool receive an error message: "SCORM operation failed". Users are able to import the package successfully within the original Blackboard Academic Suite software but cannot import it to Vista.	4.1.2.x / 6.1.2.x	4 - Low
SDK	New columns in the rpt_member table cause the SDK getMembers() method to fail.	4.2.0.x / 6.2.0.x	2 - High
SSO/Authenticati on Modules	Security: Powerlinks connected to Single Sign-On services using a shared secret can be compromised.	4.2.2.x / 6.2.2.x	1 - Showstop per
SSO/Authenticati on Modules	Security: Log in through the SSO URL to get into WebCT. The URL will have a JSESSIONID. Copying that link and pasting it into another browser (even on a different computer) results in access as that original user.	4.2.3.x / 6.2.3.x	2 - High
Stability	Added settings to enable/disable "All Topics view" and "All MyPosts view" in the Discussion Board to aid in performance optimization.	8.0 SP2	2 - High
User Interface	Creating 10 or more Web links in a Section breaks the Delete feature.	8.0 SP2	3 - Medium
User Manager	Using the User Manager to "Unenroll" a user can remove the wrong membership record	4.2.0.x / 6.2.0.x	2 - High
WebDAV	When a user opens a web folder and accesses the content in the directory listing a "session expired" pop up is displayed.	8.0 SP1	2 - High
